Return Policy

Customer Support Knowledge Base

Return window

Eligible products may generally be returned within 7 days after delivery. The exact return window and conditions shown on the product page or order details take precedence.

Condition of returned items

Items should be unused, unwashed, undamaged, and returned with original tags, accessories, manuals, and packaging where applicable.

Returns may be declined if inspection finds signs of use, missing components, damage caused after delivery, or a mismatch with the returned item.

Non-returnable items

Final-sale products, personalized or customized goods, and certain hygiene-sensitive products may be non-returnable unless they arrive damaged, defective, or incorrect.

Check the product page and checkout terms for category-specific exclusions.

How to start a return

1. Open Order History and select the delivered order.
2. Choose the eligible item and select Return.
3. Choose a return reason and submit the request.
4. Follow the pickup or drop-off instructions and retain the return tracking or receipt.

Inspection and refund

Returned items may be inspected after receipt. Once the return is approved, the refund is initiated under the Payment & Refund Policy.

If a return is rejected, support should provide the reason and explain any available next steps.

Damaged or incorrect item

Report damage or an incorrect item as soon as possible. Include the order number and clear photos of the item and packaging when requested through an official support channel.
